

Enter the Expanding Russian Market with ExpoElectronica – The Largest International Electronics Exhibition in Russia and the EAEU

Date: 16 – 18 April 2024

Location: Russia, Moscow, Crocus Expo IEC

150+

International exhibitors

from **7**
countries

21K+

visitors

from **11,492**
companies

50+

events within
business-
programme

300+

Russian
exhibitors

17 sq.m.
space

EXHIBITION SECTIONS

- Electronic components, modules and subsystems
- Technologies, equipment and materials for electronic manufacturing
- Embedded systems and components

NEW - Robotics, including Technologies & Sensorics, Components, Software, Specialized applications, AI&Control Systems

NEW - IT and Digital solutions, including IT-solutions, Telecommunications, Software, Smart manufacturing & Automation, Electronic transport and navigation systems, Medical electronics and telemedicine

ExpoElectronica is a cross-point for uniting electronics industry with IT, Telecommunications, Robotics and other related industries.

KEY BENEFITS OF EXPOELECTRONICA

- The most visited exhibition of the electronics industry in Russia and the EAEU
- Demonstrations of technological equipment onsite
- High return on investment
- Widest representation of Russian developers and manufacturers
- Opportunities for building cross-countries cooperation
- Opportunities for cross-country cooperation
- High level of official support
- Intense business and technical programme
- ITE Group has offices in Moscow, Beijing, Dubai

RUSSIAN ELECTRONICS AND IT MARKET HIGHLIGHTS

- 3 000+ electronic enterprises, 10 microelectronics manufacturers, 65 to 300 design-centers in 2030
- Total revenue: from 30 mlrd. \$ in 2018 to 87 mlrd.\$ in 2030
- From 1,8% in GDP of Russia to 3,5% in 2030
- Export volume 4,16 mlrd \$ to 12 mlrd\$ in 2030
- Manufacturing of civil electronic products share 31% in 2018 to 43% in 2030
- Major electronic hubs: Moscow, Saint-Petersburg, Kaluga, Voronezh, Vladimir, Tatarstan, Yekaterinburg, Novosibirsk
- Electronic Manufacturing Services grow in 2023 by 20%
- 108 000+ IT-and Telecom enterprises
- Total revenue \$34,5 mlrd, 5-15% annual growth of IT-market
- The number of Robotics companies in Russia has doubled over the past year, and currently stands at 500 companies: integrators, manufacturers, developers
- The volume of domestic production of robotics in Russia is growing by 30%

WINDOW OF OPPORTUNITIES NOW

**Limited import
to Russia**

**Ceased international
cooperation**

**Short period of time
for import-substitution**

ExpoElectronica offers exhibitors a golden chance to showcase their products to a diverse audience. From experts and managers in electronic development, production, and distribution to microelectronics, radio electronics, components, accessories, and service providers, consumers and customers of ready solutions for various industries and configurations – everyone's here. If you're looking to reach industry leaders and those seeking top-notch electronics and solutions, this is your moment.

WHO SHOULD EXHIBIT

- Manufacturing/distributing companies for all kind of electronics components
- Semiconductors companies
- Suppliers of equipment and materials
- PCB and Circuit boards manufacturers
- Power Electronics manufacturers
- Electronic design and Development services
- Electronics manufacturing companies
- EMS companies
- Robotics and Industrial Automation companies
- Test and Measurement equipment Manufacturers
- Software developers
- IOT and Embedded systems companies
- Suppliers of IT-and Digital solutions
- Telecommunication equipment manufacturers
- Private investing companies and related enterprises

Step into the world of ExpoElectronica – the ultimate electronics extravaganza in Russia and the EAEU region, renowned for its extensive exhibitor and visitor numbers, and backed by a robust 25-year legacy.
